**Scholars Program 2016–2017**

**XSEDE Scholars**, a yearlong program, provides graduates and undergraduates majoring in science and engineering disciplines with exposure to high-performance computing (HPC), and includes training and access to HPC resources.

The focus is on underrepresented groups—African Americans, Hispanic/Latinos, Native Americans, and women. To be eligible, one must be a U.S. citizen or permanent resident currently attending a U.S. institution.

The XSEDE Scholars Program is directed by Professor **Richard Tapia**, recipient of the 2011 Medal of Science. The program is managed by Juliet Stipeche and Leticia Velazquez, Rice University.

**XSEDE Scholars will:**

- Receive an stipend of $5000 to work on an HPC educational/research internship from May 31, 2016-June 1, 2017
- **Travel to:**
  - the 2-Week Blue Waters Petascale Institute (late May)
  - the annual XSEDE conference (XSEDE16) July 17-21, 2016 in Miami
- Meet other XSEDE Scholars in special session at the XSEDE16 conference and via an online community throughout the year
- Participate in at least six online technical training and mentoring webinars with other XSEDE Scholars
- Network with leaders in the XSEDE research community
- Learn about research, internships, and career opportunities
