This classroom course allows you to use your newly acquired skills in real-life audit situations. You’ll apply the proper interpretation of the ISO 9001:2015 standard in actual internal audit situations.

This two-day classroom course makes extensive use of student activities and case studies to help you fully understand the requirements of auditing to the ISO 9001:2015 standard. Lecture time is held to a minimum, providing you time to learn and then practice your newly acquired skills in real-life audit situations. This assures that you are prepared to conduct effective audits.
